PROFESSIONAL SUMMARY

DevOps and Cloud Engineer with 2 years of experience spanning software development and cloud infrastructure operations. As Team Lead at World e Mart, managed AWS EC2 deployment architecture, SSH-based server operations, and CI/CD pipelines that cut deployment time by 65% and enabled zero-downtime, multi-daily production releases. AWS Certified (Cloud Practitioner and Solutions Architect) with hands-on experience in Terraform, Docker, GitHub Actions CI/CD, Linux administration, and monitoring with Prometheus, Grafana, and CloudWatch — further proven through a self-built, fully documented end-to-end AWS deployment project. Comfortable diagnosing and permanently resolving real infrastructure incidents end to end. Completed AWS's DevOps and AI on AWS Specialization, covering AIOps, CloudWatch Anomaly Detection, and generative AI integration with Amazon Bedrock.

CORE TECHNICAL SKILLS

Cloud: AWS (EC2, VPC, S3, RDS, EBS, Security Groups, IAM basics), AWS Certified Solutions Architect, AWS Certified Cloud Practitioner
Infrastructure as Code: Terraform (VPC, EC2, security groups, EBS provisioning)

Containers: Docker, multi-stage builds, Docker Compose, Kubernetes fundamentals

CI/CD: GitHub Actions, automated build-deploy-verify pipelines, zero-downtime release strategies

Monitoring & Observability: Prometheus, Grafana, node-exporter, AWS CloudWatch

Linux & Web Servers: Linux administration, Shell scripting, Nginx (reverse proxy, SSL), Let's Encrypt/HTTPS

Databases: MySQL, PostgreSQL, query tuning, race-condition and reliability troubleshooting

Development Background: PHP, Laravel, RESTful API design, Git, code review, Agile/Scrum

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate, Amazon Web Services
- AWS Certified Cloud Practitioner, Amazon Web Services
- Terraform Basics: Managing Infrastructure as Code, Packt / Coursera
- Docker for Beginners with Hands-on Labs, KodeKloud / Coursera
- Hands-on Introduction to Linux Commands and Shell Scripting, IBM / Coursera
- Linux Unhatched, Cisco Networking Academy
- DevOps and AI on AWS Specialization, Amazon Web Services / Coursera

FEATURED PROJECT — PRODUCTION-STYLE AWS DEVOPS DEPLOYMENT

Personal Project — Live and documented on GitHub | github.com/sheffinthomas-dev/laraboard-careers-devops

- Deployed an open-source Laravel job-board application on AWS EC2 using Terraform to provision VPC, security groups, EC2 instances, and EBS storage as reusable Infrastructure as Code.
- Containerized the application with a multi-stage Docker build and automated build and deploy with a GitHub Actions CI/CD pipeline, including retry logic and health checks.
- Implemented zero-downtime deployment, an Nginx reverse proxy with custom domain and Let's Encrypt HTTPS, async mail-queue processing, and monitoring/alerting via Prometheus, Grafana, and AWS CloudWatch.
- Diagnosed and permanently resolved real production-style incidents: Docker build failures, a database race condition, stale Nginx IPs causing 502 errors, and a kernel OOM-killed MySQL process.

PROFESSIONAL EXPERIENCE

Full-Stack Developer & Team Lead | World e Mart Pvt Ltd

Kochi, Kerala, India

June 2025 – May 2026

- Led the LiveTour CRM project as team lead, owning Git workflows, branching strategy, and code reviews for the team.
- Designed and managed AWS EC2 deployment architecture with SSL configuration for a production CRM platform.
- Built CI/CD pipelines that reduced deployment time by 65% and enabled zero-downtime, multi-daily production releases.
- Designed new CRM modules and developed multi-tenant RESTful APIs supporting the platform's core workflows.

Junior Software Engineer | RVIQ Softwares Pvt. Ltd.

Kochi, Kerala, India

May 2024 – May 2025

- Built and maintained RESTful APIs in PHP/Laravel, working with MySQL and PostgreSQL databases.
- Contributed to a job portal with an Applicant Tracking System (ATS) and role-based access control (RBAC).
- Contributed to a healthcare management system, including patient records and administrative workflows.

EDUCATION

Master of Computer Applications (MCA) — MACFAST, Thiruvalla | 2024 | GPA: 3.7/4.0

Bachelor of Science in Computer Science — College of Applied Science, Alappuzha | 2022 | GPA: 3.6/4.0, Merit Scholar
